ORDER BLOCKING ALL ACTION ON COLLEGE BUILDING IS ISSUED

JUDGE SAYS MOVE IS MANDATORY AS SECOND VOTE ATTACK FILED

AUSTIN, Sept. 25.—(P)—A court order temporarily restraining Sec. of State Brown from "tabulating, estimating or canvassing" the returns in the election at which the college building amendment was voted was issued by Judge Roy Archer in 126th District Court today.

Judge Archer said statutes made issuance of the order mandatory on the court—even though the official canvass of the election has already been made—until disposition is made of a suit filed this morning contesting the election in six Texas counties.

The effect of the ruling, Archer said, will be to prevent certifying that there is no litigation against the bonds authorized by the amendment.

AUSTIN, Tex., Sept. 25.—(P)—A suit contesting the college building amendment election in six Texas counties was filed in 126th District Court here today.

The suit alleged that in Bexar, Galveston, El Paso, Hill, Moore and Taylor counties the proposed amendment was submitted, irregularly in at least three months, commencing at least three months before the election.

It was the second court attack on the amendment adopted at the Aug. 25 special election by a narrow vote. The amendment was designed to give state-supported colleges and universities a \$60,000,000 building program.

Illegal Votes Charged

The suit was styled C. W. Whiteside and others versus Paul Brown, secretary of state. It contended that the official poll of the votes cast included "votes which were illegal and void because irregularities in the election" in the counties named.

Votes Already Canvassed

Judge Roy C. Archer, in whose 126th District Court the suit was filed, pointed out that the amendment had already been canvassed and the governor had issued a proclamation declaring the amendment.

See AMENDMENT, Page 10

SLAVERY CHARGE IS MADE AGAINST TEXAS COUPLE OVER NEGRO

EL PASO, Tex., Sept. 25.—(P)—An El Paso couple charged with holding a negro girl in slavery for the past 11 years will have a hearing in the case tomorrow.

FBI agents yesterday charged Paul R. Franklin, 67, a contractor, and his wife, Mrs. Anna L. Franklin, 62, with "knowingly aiding in causing Elizabeth Coker, negro, also known as Jean Coker, to be held as a slave in violation of Section 443, Title 18, United States Code."

The pair were arranged before R. E. Crawford, acting U. S. Commissioner.

R. C. Surin, special agent in charge of the El Paso division of the FBI, said investigations conducted by special agents indicated that the Franklins took the girl into their home in El Paso in 1936 as a servant and she worked for them from that time until January, 1947, except for a period when she was in a mental institution.

The statement went on to say that allegations were the girl was paid no wages, "was not permitted to attend school or church or social functions."

TWO MORE ARRESTED IN ROBBERY OF BANK AT SWEET HOME, ORE.

OKLAHOMA CITY, Sept. 25.—(P)—Arrest of two additional persons in connection with the \$58,000 robbery of the Bank of Sweet Home, Ore., Aug. 29, was announced today by D. A. Bryce, chief of the Bureau.

Bryce said Henry Clay Green, 27, was arrested on a warrant charging participation in the robbery and that his wife, Fannie Lee Green, 21, was being held as a material witness.

Bryce said the two were taken into custody near Woodville in Marshall county (Okla.) this morning.

State Game Ranger Ed Everett, Sheriff Joe Everett of Marshall county and FBI Agents W. C. Gentry and Wilson McCully arrested Green and his wife, Bryce said.

Green was armed with a rifle but offered no resistance.

The two arrests brought to four the number held in connection with the robbery.

Henry Clay Tollett, Oklahoma ex-convict, was arrested in Bakersfield, Calif., Sept. 19 after the arrest at Hugo, Okla., of Joe Berry Bishop, Sept. 12.

Boost For Eisler Admitted By Ex-Official

WASHINGTON, Sept. 25.—(P)—George S. Messersmith, then assistant secretary of state, acknowledged today that he wrote the American consul general at Havana in 1939 urging prompt and personal consideration of Hanns Eisler's application for a visa to reside in the United States.

Testifying before the house committee on un-American activities, Messersmith also said he sent the consul general a copy of a letter that Sumner Welles, then undersecretary of state, had written Mrs. Eleanor Roosevelt, who had expressed interest in Eisler's case.

The committee is investigating the question whether high government officials have knowingly permitted Communists to come to this country in violation of immigration laws.

Eisler, now a Hollywood song writer, testified yesterday that he joined the Communist party in his native Germany in 1926, but declared he was never active and is not now a Communist.

Messersmith took vigorous exception when Rep. Rankin (D-Miss) called the letter "almost a directive" for the consul general to give Eisler a visa.

The former state department

HANNS EISLER.

official declared it was not intended as a directive at all.

"Careful Consideration," Rep. J. Parnell Thomas (R-N.J.), committee chairman, commented: "If you can explain yourself out of this, you're good."

Messersmith said the letter to Coert DuBois, the consul general at Havana, was "merely to make it clear to him that this was a case that had angles" requiring careful consideration and personal attention.

At one point, the letter said: "If, when Mr. Eisler calls at the consulate at Havana, he definitely states that he does not hold views for which he could be excluded under our immigration laws, I do not believe that a visa could be withheld unless the consul has evidence which would disprove his statements."

"He" Knowledge Claimed.

Robert Stripling, committee counsel, has asserted that at that time the state department had information that Messersmith knew of the reports Eisler was a Communist.

Under his questioning, Messersmith said his attention first was called to the Eisler case by Dorothy Thompson, newspaper col-

Ship Blast, Fire At Texas City Is Fatal To Crewman

TEXAS CITY, Sept. 25.—(P)—Crewman William Fall, Flushing, L. I., said today a checkup of crew members disclosed that only one man was killed in a fire and explosion aboard the tanker Cedar Mountain here last night.

He said it was first believed that two men had been trapped in the tanker's engine room.

Body of a man identified by Second Engineer W. L. Turner of McDonough, Ga., as Third Assistant Engineer Albert Bruback of Pittsburgh, Pa., was recovered one hour and 33 minutes after the blast.

Intense heat prevented rescuers from entering the engine room for an immediate search for the second man at first thought trapped.

After the fire was extinguished at 3 a. m. today, members made a checkup of crew members and it was definitely established that only one life had been lost, Fall said.

See SHIP BLAST, Page 2

Total Of 67 Forest Fires Reported In East Texas Timber

CONROE, Sept. 25.—(P)—Sixty-seven forest fires swept through vast timber tracts in three Southeast Texas counties last night.

A request for the department of public safety at Austin to furnish Rangers to investigate origin of the fires was made by J. O. Burnside, chief of the Texas forest service's division of forest protection at Lubbock.

Early yesterday morning only 12 fires were reported burning.

J. U. Foster, district forester for the Texas forest service, who spotted blazes from a plane, said the majority of the 67 fires were located in Southeast San Jacinto, South Liberty and East Montgomery counties. Six were south of Cleveland.

One was near Conroe, six near Willis, six near Spondora and one near Keenan. There were several northwest of Fostoria and others were scattered.

Two fires also were reported near Lubbock in Angelina county, one near Accl in Polk county, and one west of Nacogdoches.

Burnside issued a plea to all persons in the woods to be especially careful with fires during this dry period. He was particularly concerned that hunters be sure to extinguish fires.

STUDENT PARADE FETES DOBIE

AUSTIN, Sept. 25.—(P)—Two hundred Texas students last night staged a mile-long march bearing flaming torches and banners to the home of Professor-Folklorist J. Frank Dobie to thank him for 33 years of service to the University from which he was dismissed Tuesday.

Student-leader of the demonstration William Darden of Hollywood told the ex-professor of English that the group came not as a protest against the University administration but with one purpose—"to pay our respects to a beloved Texan and express appreciation for your 33 years of service to the University of Texas."

Dobie, who was dismissed by the administration because he failed to return to duty this semester after his request for leave was refused, stood on the back steps of his home and listened to the student tributes. His wife sat on the steps nearby.

"I don't know hardly how to express my appreciation and Mrs. Dobie's appreciation for this expression of your heart and—I say without flattery—your intellect."

Dobie, who was dismissed by the administration because he failed to return to duty this semester after his request for leave was refused, stood on the back steps of his home and listened to the student tributes. His wife sat on the steps nearby.

OFFICIAL TO EXPLAIN RETURNING BODIES OF WAR HEROES ON OCT. 2

NEXT-OF-KIN OF SLAIN SERVICEMEN URGED TO ATTEND MEETING HERE

Next-of-kin of the 130 soldiers, sailors and marines of Navajo county who died in foreign lands during World War II will have explained to them the Quartermaster Corps procedure in returning their bodies for burial in a meeting scheduled for 9:30 a. m. Oct. 2.

Big Shag Floor, World War I veteran and long prominent in Texas American Legion circles, now information specialist of the Fort Worth Quartermaster depot, was scheduled Thursday arranging the meeting.

Records of the QM indicate 5,511 men were in service from this county, and 130 failed to return from overseas.

Col. C. D. Castle of the Fort Worth post, will hold the meeting here, as well as others scheduled in this territory.

The next-of-kin or anyone interested in returning of the remains of those who died overseas between Sept. 3, 1939 and July 1, 1946, will be urged to attend the session.

Private Interviews

Following a general talk he will be available for private interviews for those with personal questions.

The meeting in all probability will be held in the American Legion hall, but definite announcement will be made.

Flores said that approximately 90 percent of survivors of the fallen soldiers wanted their remains taken from foreign cemeteries and brought back home.

STATE AGENCY MAY STILL INTERCEDE IN GYPSUM STRIKE

AUSTIN, Sept. 25.—(P)—Governor Beauford H. Jester said today he would ask the attorney general for an opinion on whether or not he may use deficiency appropriation funds for financing a possible investigation of the Sweetwater gypsum plant labor dispute.

One barrier to invoking the service of the state industrial commission—which functioned in the

strike, was the refusal of the state industrial commission to participate in the strike.

Police investigator Vic Dwyer and Deputies H. L. Owens and V. J. Donnelly, upon arrival at the filling station, found the refrigerated compartment still closed tightly.

See GYPSUM, Page 2

Cool Breezes Sweep Much Of Texas As Weak Norther Hits

By The Associated Press

Cool breezes played across much of Texas today as a weak norther moved into the state.

The front lowered temperatures into the 40's at several points early today and the weatherman promised that tonight will be just as cool.

No rain was reported and none is in sight. The outlook for the entire state, the U. S. Weather Bureau said, is for clear skies to continue through tomorrow.

Lampasas registered a minimum of 42 degrees early in the day for the lowest temperature in the state. Three points—Kerrville, Junction and Lufkin—listed 43.

Yesterday's maximums included 97 at Midland in the Panhandle, 96 at Seymour, San Marcos and Pampa, and 95 at Clarendon and Henrietta, down to a pleasant 79 at Palestine, Lindale and Greenville.

Convicts Escaping In Freezing Truck Glad When Caught

HOUSTON, Tex., Sept. 25.—(P)—A half-dozen convicts who escaped from the Texas State Prison No. 2 near Sugar Land in a refrigerator truck were "rescued" today by Houston police and sheriff's deputies after a passing motorist spotted a hand through the truck's rear door.

The motorist, R. M. Angell of Houston, pulled alongside the truck and notified the driver, R. M. Hartless, a trusty at the farm, who immediately stopped at a filling station and called police.

The two convicts, Seamon Williams, 29, serving 99 years for murder from Plainville, and S. J. Knight, 28, serving 20 years for robbery from Waco, were among a group who loaded the truck with meat before dawn today, prison officials said.

The truck was to take the meat to the main penitentiary at Huntsville.

Williams and Knight told police they had sprung the rear door of the truck and that Williams was reaching through the small opening, trying to unlatch the door when Angell's car approached from the rear.

Police investigator Vic Dwyer and Deputies H. L. Owens and V. J. Donnelly, upon arrival at the filling station, found the refrigerated compartment still closed tightly.

See CONVICTS, Page 10

PROPOSAL BY U.S. TO REQUIRE CONDITIONS OF SATELLITES WINS

ALBANIA AND BULGARIA MUST AGREE TO ACCEPT DECISION TO TESTIFY

LAKE SUCCESS, Sept. 25.—(P)—Russia suffered a smashing defeat late today in her first test of strength with the United States on the Balkan problem before the political committee of the United Nations assembly.

The test was on an American-supported proposal that Albania and Bulgaria—two of Russia's satellites—be barred from participating in the Balkan debate before the 55-nation committee unless they accepted the principles of the U. N. charter in advance.

The vote was 38 to 6. Only the members of the Soviet bloc voted in the negative. The vote came after Russia and her followers had made a vigorous fight against the move.

LAKE SUCCESS, Sept. 25.—(P)—The United States whipped a new Balkan proposal into shape for prompt United Nations action today with the evident purpose of seeking strong international reinforcement for the Truman doctrine in Greece.

The delegation under the leadership of Secretary of State Marshall was reported to have worked separately to have Italy considered separately.

RUSSIAN 'BLACKMAIL' CHARGED IN BID FOR SATELLITE APPROVAL

LAKE SUCCESS, Sept. 25.—(P)—Australian Delegate W. R. Hodgson today accused Russia of using "blackmail" aimed at forcing the Security Council to admit Soviet satellites to United Nations membership.

Hodgson made the blackmail charge in referring to a statement by Soviet Deputy Foreign Minister Andrei A. Gromyko that Russia would vote against admission of only if the council also admitted Hungary, Romania, Bulgaria and Finland.

The United States and Britain supported Italy, but objected vigorously to admission of the Communist-led governments of Hungary, Romania and Bulgaria. They insisted that a separate vote be taken on each of the five-ex-enemy states.

New Fight Opens

Polish Foreign Minister Zygmunt Modzelewski touched off the new big power fight by proposing that the council give blanket approval to all five ex-enemies.

Gromyko supported the Polish proposal with a declaration that the Potsdam agreement treated all these ex-enemy states in the same way without any discrimination toward any of them.

"The United States and the United Kingdom," he said, "deviate from the Potsdam agreement when they insist on a separate vote for each of the five ex-enemy states."

See BALKANS, Page 2

TRIESTE STRIKE ENDS AT BEHEST OF A.M.G.; SOLDIERS STILL HELD

TRIESTE, Sept. 25.—(P)—A general strike which paralyzed shipping in Trieste's port for 24 hours was brought to an end early today.

The allied military government of the new free territory announced that an agreement to call off the strike had been reached at a midnight conference attended by AMG officials; leaders of the Sincinati Unione; and of the moderate, non-Communist Camera del Lavoro, which refused to participate.

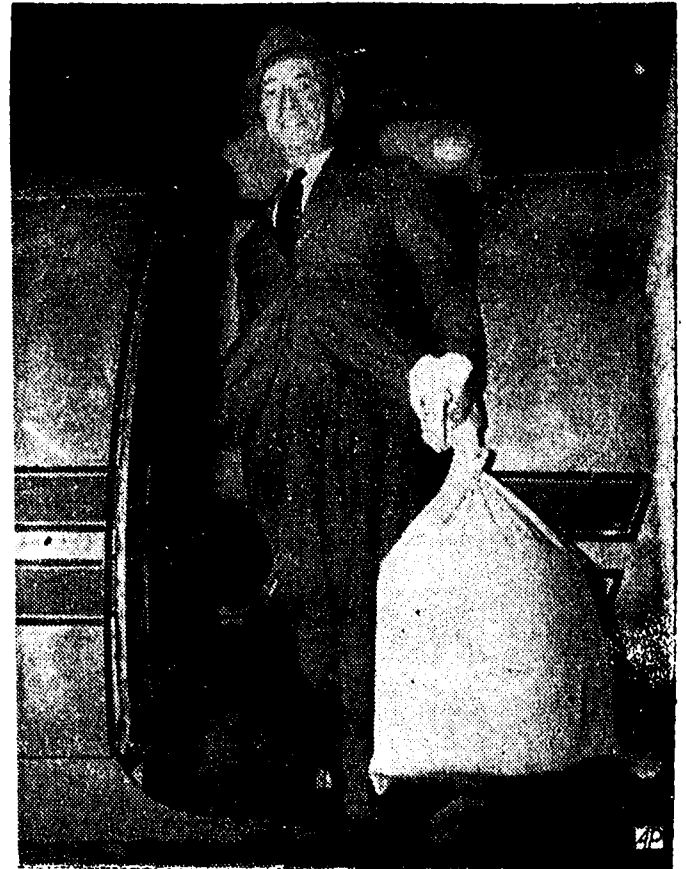

Both unions claimed a "moral victory" and military government officials made no effort to conceal their pleasure at having the strike ended. The British-American AMG had feared that the work stoppage might embolden it in an East-West struggle with the leftist labor movement. About 12,000 workers were idle during the strike.

AMG To Release Workers

The military government announcement said that under the agreement to end the strike AMG "provisionally" would release nine Sincinati Unione members arrested early Wednesday under accusation that they incited workers who refused to participate in the strike. They are to be brought to trial within 48 hours.

AMG said it further agreed to reinstate all suspended Sincinati Unione members and permit them to return to work. Sincinati Unione claimed its "moral victory" on these grounds, since suspension of some of its members had been given as the technical basis for the strike.

Sincinati Unione agreed in return that its members would return to work at once.

EUROPE'S NEEDS—British messenger Walter Kirkwood leaves his plane at La Guardia Field in New York City holding a sack containing 230-page report on the needs of 16 European nations under the Marshall plan. The report asks approximately \$15,810,000 in U. S. credits during 1948 to 1951. (AP Wirephoto.)

BUTTER PRICE OFF, EGGS STEADY, GRAINS HIGHER AS TRUMAN TELLS PROPOSALS ON FOOD SITUATION

By The Associated Press

As President Truman called on Americans today to conserve food to help feed Europe's hungry, and appointed a citizens food committee to consider the food problem, New York top grades of butter dropped 2 3/4 cents a pound on the best grade selling at 77 cents a pound, compared with 86 1/2 cents Sept. 15. Consumer resistance was credited with forcing the decline.

Wholesale egg prices held steady in New York and cotton futures

opened 25 to 40 cents a bale higher.

The rally in grain prices followed an announcement of President Truman's cabinet food committee that about 470,000,000 bushels of all grains would be available for export during the 1947-48 fiscal year.

After an hour of trading, wheat was 1-2 to 1-2 cents higher than yesterday's close with December at \$2.07 3/4. Corn was up 1-2 to 1-4, December 1.18 1/4, and oats 1-4.

See PRICES, Page 10

APPALACHIAN AND PHILADELPHIA USERS NEED ALL GAS BIG, LITTLE INCH LINES CAN GIVE, FPC TOLD

WASHINGTON, Sept. 25.—(P)—Counsel for the anthracite industry and a number of coal-hauling railroads urged today that the application of Texas Eastern Transmission Corp. for a certificate to use natural gas into the Philadelphia area be turned down.

WASHINGTON, Sept. 25.—(P)—David T. Searles, counsel for the Texas Eastern Transmission Corporation, told the Federal Power Commission today that customers in the Appalachian and Philadelphia areas need all the natural gas that can be furnished them through the Big and Little Inch pipelines.

Searles said, in arguments on the company's application to operate the lines permanently, that capacity deliveries of gas are needed in the Ohio-western Pennsylvania area to meet emergency and long-time requirements. Deliveries to Philadelphia, he said, would mean the saving of \$4,000,000 a year to the Philadelphia Gas Works Company alone.

Saving of Petroleum

He said the savings to the Philadelphia company would be brought about through the use of natural gas for existing purposes and the replacement of petroleum in the manufacture of gas. He said the company now has \$1.5 million in savings.

ATTENDS WIFE'S FUNERAL WITH BRIDE—Frank "Rodeo Roy" Nicholson San Francisco radio entertainer (right), and his bride of a few days, the former Ann Cooper Hewitt (center), leave the chapel of a funeral parlor in Sacramento, Calif., after funeral services for Nicholson's wife, Gertrude, who died in San Francisco. At left is the bridegroom's brother, Eugene. Nicholson married again within 24 hours after his wife died. (AP Wirephoto.)

SAVING WOULD AID IN EUROPEAN RELIEF; NO SPECIAL SESSION SET

PRICE CONTROL RETURN, RATIONING SAID UP TO CONGRESS BY TRUMAN

WASHINGTON, Sept. 25.—(P)—President Truman asked Americans today to save food for Europe's hungry and said he still hopes emergency aid can be met without a special session of congress.

In a news conference, Mr. Truman left open, however, the possibility that the legislators may be summoned into an emergency session. That is a question to be explored at a conference he will have Monday with Republican and Democratic congressional leaders.

Asked whether he thinks a return of rationing and price controls might be necessary, he replied that those are matters for congress to decide.

Conservation Budget Aid

In appealing for food conservation, the president observed that it is the duty of the American families as well as providing food to combat hunger in Europe.

His 20-minute talk with reporters ranged over a wide field of the problems involved in helping Europe get through the winter and back on its feet, economically speaking.

Mr. Truman said:

1. A decision on a special session of congress for emergency aid for Europe will flow from a meeting he has scheduled Monday with congressional leaders of both parties. He hopes a special session can be avoided, but has an open mind on the subject.

Marshall Plan Studied

plan for helping European countries which help themselves and each other, careful study will precede any action and the government will carry out the necessary conservation effort."

"Other committees have been assigned the responsibility of studying the report drawn up by 16 nations in Paris, outlining their needs under the Marshall plan."

Mr. Truman repeated, however, his immediate plan to save food. Repeatedly, he said, it calls for saving food, for not wasting food.

Mr. Truman said he has been advised that Americans waste the equivalent of 70,000,000 bushels of food.

See FOOD-AID, Page 10

LEADERS OF DEFENSE SETUP ROUNDED OUT WITH TOP SCIENTIST

WASHINGTON, Sept. 25.—(P)—President Truman today completed the top leadership of the new national defense organization by naming Dr. Vannevar Bush, noted scientist, as chairman of the research and development board.

He also filled positions in the new department of air with these appointments:

Arthur S. Barrows, Chicago, Ill., to be undersecretary of the department which is headed by Secretary W. Stuart Symington.

Eugene A. Tamm, Washington, D. C., to be assistant secretary for air.

Zerkow has been special assistant to the assistant secretary of war for air. Whitney, an officer in both World Wars, is president of a lumbering company in Northern New York state and head of livestock properties in New York and Kentucky.

Gen. Carl Spaatz was appointed chief of staff for the air department. He has been chief of the army air force.

The board which Dr. Bush will head is designed to keep America in the forefront of scientific developments and in obtaining new weapons.

SCHOOL LAND BOARD GIVEN COMPLAINTS ON GULF DYNAMITING

AUSTIN, Sept. 25.—(P)—Charges that the state game, fish and oyster commission has done "practically nothing" about the killing of "hundreds of tons" of fish in the Gulf of Mexico by oil companies' dynamiting exploration activities were brought before the state school land board at a public hearing here today.

The board and an audience of approximately 300 were told that the explosions had cut down commercial fishermen's revenue by 50 percent.

"I've seen hundreds of tons of dead fish floating in the gulf after exploration activities," Cleo McLean, president of the Sabine Fishermen's Association, testified. He said three months ago there were so many dead fish he could see them in any direction for five miles. Sun Oil company and Stanolind were shooting that day, he said.

State Commissioner H. W. C. Gentry, representing the Gulf Coast Road, Real and Gun club, accused the game

Odessa telephone strike—is a lack of funds, Jester said.
His contingent fund for enforcement of law would be the usual source of money with which to finance a fact-finding expedition by the commission, Jester said. The legislature allowed \$1,500 for this purpose, but the commission's activities in the Odessa dispute ate up \$650 of the fund.

Deficiency Funds Studied.
"I will ask the attorney general if I may legally use deficiency funds for this purpose," Jester said.

New Plans for state intervention in the Sweetwater labor dispute brought the possibility the state may step in. Jester was considering these after having announced Saturday he did not expect to take further action.
Several weeks ago, he had offered the commission's services, but the U. S. Gypsum company declined. Local No. 82 of the United States Cement, Lime and Gypsum Workers agreed to the arbitration. Jester also sent Labor Commissioner M. B. Morgan to the scene to make a personal investigation.
Sen. Pat Busscock, County Judge Delas Reeves of Nolan county and Mayor R. O. Peters of Sweetwater yesterday urged Jester to try again to settle the difficulty, saying the strike "is seriously affecting the economy of this community."
Jester promised a new study of the industrial commission statute to see if its aid could be invoked. The strike followed the action of the Gypsum company and the union to agree on wages and hours. The company manufacturers walk out.

HAVE ONE ON ME—Skipper, tough tomato, and Stupid, a desert turtle, share meals at the El Paso, Texas, home of Mrs. Peggy Stevenson. The two have become fast friends, sometimes sit by the hour gazing at each other calmly. Often Skipper will doze with one paw draped over Stupid's shell. (AP Photo.)

TOUGH CHICAGO CAT, TORTOISE NAMED STUPID BEST OF FRIENDS IN HOME OF OWNERS AT EL PASO

By JACK RUTLEDGE
Associated Press Staff.
The Texas Today award for outstanding Texas journalism, the poor man's Pulitzer Prize, goes to Art Leibson of the El Paso times for his story of Skipper the cat and Stupid the turtle.

El Paso. Skipper is tough, and has lost many a chunk of fur in backyard combat.

Tortoise Quiet, Slow.
Stupid is a quiet, slow-thinking desert tortoise that moved in the Stevenson back yard two months ago and set up housekeeping at the roots of some Texas ivy. He was named Stupid because of his blank expression.

Also, no one could figure whether, well, you know, if it was John or Mary.
Skipper and Stupid immediately struck up a friendship. That was strange, the Stevensons said, because Skipper usually arched his back and spit at any living thing in the neighborhood.

But Skipper never bared a claw at Stupid, and Stupid made no snapping movements with his vice-like jaw in the direction of the cat.

The two sit by the hour gazing at each other calmly. In friendly moments, Skipper will doze off with one paw draped across Stupid's shell.

Pets Share Food.
Strangest of all is the manner in which they eat together.

What's good enough for Skipper is good enough for Stupid, and they share alike.
Skipper howls for his breakfast promptly at 8:30 a. m. daily. Stupid, his neck jutting out in an obvious "when do we eat?" attitude, wandles up. Mrs. Stevenson puts the food on a piece of paper.

Skipper, doubtless remembering his Chicago days when he had to fight off the gangster cats, wolfs his food.
Stupid climbs on the paper, covering some of the food with his shell. He stands nose to nose with Skipper until the cat is finished. Then Stupid backs off, and slowly eats the food he has been saving.

The Stevensons say come on out and watch them some time. Skipper is a tough ex-West Side Chicago tomcat found in a Chicago tavern two years ago by Mrs. Peggy Stevenson and brought to El Paso.

ed out already a tentative draft of a resolution by which the U. N. assembly would set up "what some officials called a 'fairly large' commission to maintain a constant watch on Greece's borders with Yugoslavia, Albania and Bulgaria."

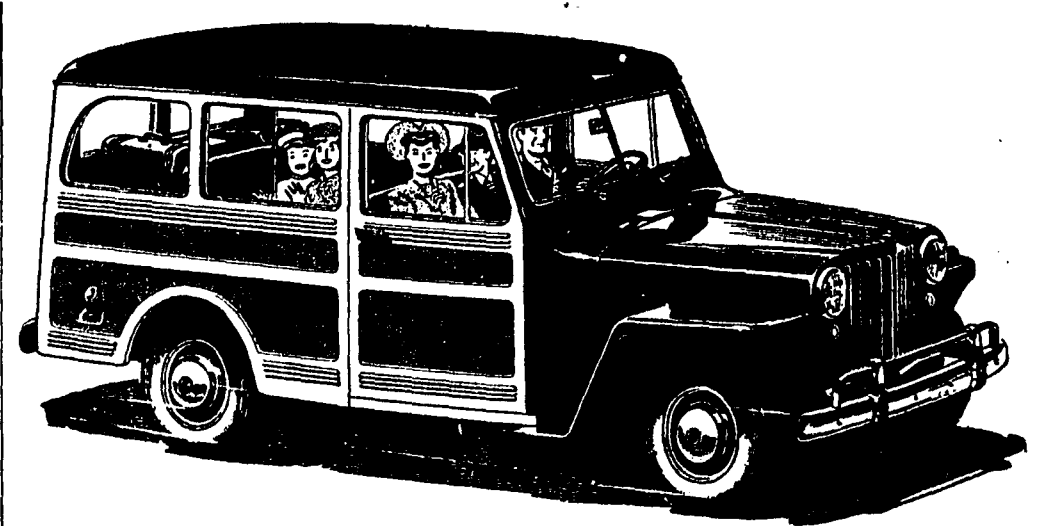

The commission, American authorities contend, would serve by its very presence to minimize the number of border incidents and otherwise help protect Greece against alleged Communist aggressions—which is also the stated political objective of the Truman doctrine in that country.

The whole subject was slated for action by the assembly's 55-nation political commission due to meet at 1 p. m., Central Standard time with Mrs. Franklin D. Roosevelt to assist American member Warren Austin in meeting strong Russian opposition.

SHIP BLAST

CONTINUED FROM FIRST PAGE
Blast Near Disaster Site.
The tanker blast occurred at 11:25 p. m. last night near the scene of the April 16 and 17 disaster in which two ship explosions resulted in 700 dead or missing.

Fall said the Cedar Mountain, which arrived here yesterday from Port Everglades, Fla., was a 135-barrel high octane fuel carrier. Cause of the fire and explosion was not immediately known.

Answer In Suit To Oust Taylor Asks Dismissal

An answer was filed Wednesday in the case of Robert V. Yarber, plaintiff, vs. Beauford Jester, defendant, mandamus by Price Daniel, attorney general of Texas, by Fagan Dickson, first assistant in the district clerk's office here.

Yarber recently brought a suit against the governor of Texas seeking to force him through mandamus proceedings to call a special session of the Texas Legislature for the purpose of hearing impeachment proceedings, according to the petition, against State Senator James E. Taylor of Terrell, following Taylor's acceptance of a job as public relations director for the Texas Manufacturers' association and his refusal to resign as senator.

Dismissal Sought

Six sections of the defendant's original answer pray for the dismissal of the suit after citing articles and sections of the constitution and statutes of the state of Texas, as follows:

1. That the local court has no jurisdiction for the suit for mandamus, citing Section 3, Article 5, Texas constitution, and Article 1733 of Vernon's Civil Statutes

that prohibits mandamus against the governor of Texas.

2. Section 8, Article 4, Texas constitution, the right of the governor to call an extraordinary session of the Legislature is discretionary.

3. Excepts to the suit under Section 8, Article 3, Texas constitution, which provides each house of the legislature is the sole judge of the qualifications of its members and this court has no power to compel the senate to invoke or exercise its power.

4. Excepts to the jurisdiction of this court under Section 2, Article 3, Texas constitution, in which each house has the exclusive power to punish members of disorderly conduct and this court has no power to compel the Senate to exercise this power.

5. Plaintiff has no justifiable interest in the controversy and does not allege any right in his individual capacity.

6. Plaintiff fails to show Senator James E. Taylor of Navarro county to have violated any provision of the Texas constitution or the statutes of the state or that said senator has done any act that the chief executive is returnable to the district court Monday, would subject him to punishment or removal from office.

The citation recently served on the chief executive is returnable to the district court Monday, Sept. 29, but the Thirteenth Judicial District court will be in vacation next week and A. F. Mays, district judge, set the case for Monday, Oct. 6, the opening day of the October term.

Mrs. Fannie Montgomery spent the past week-end with her son, R. W. Montgomery, at Fairfield.

UTES THURSDAY FOR JOSEPH W. HOFFMAN; BURIAL IN OAKWOOD

Funeral services for Joseph William Hoffman, aged 73 years, 706 South Twentieth street, who died Wednesday morning, were held from the Corley Funeral Chapel Thursday afternoon at 5 o'clock. Burial was in Oakwood cemetery. The rites were conducted by the Rev. Jack Goff, pastor of the Northside Baptist church.

Native of Williamsport, Tenn., Hoffman resided at Midlothian before moving to Corsicana. He worked on the construction of the Magnolia Refinery here before the turn of the century and retired from Magnolia Petroleum Company about 10 years ago.

Surviving are his wife of Corsicana; six sons, John William, Christian and Samuel Hoffman, all of Corsicana; Jodie Hoffman, of Sulphur Springs; Robert Hoffman, Mulberry, Ark., and Jack Hoffman, Abilene; four daughters, Mrs. F. M. Gentry, Mulberry, Ark., Mrs. E. Z. Krizan and Mrs. W. A. Plunkett, both of Amarillo; and Mrs. Carrie Brown, Waco; two sisters, 24 grandchildren, three great-grandchildren and other relatives including several step children.

Fall brothers were Powell Willard, Dalton Theoford, Johnnie King, Joe T. Bunch, H. O. Valentine, Whit King, Clarence Puckett and Bob Doolin.

Large Horse Show Slated At Frost

FROST, Sept. 23.—(Sp.)—One of the largest horse shows ever staged in Central Texas is scheduled here Thursday night at 8 o'clock. The show, consisting of 11 classes and two special events, will be held on the new lighted athletic field. A men's and women's barrel race also will be featured. An entry fee of \$1 will entitle a contestant to enter all events. Entries should be sent to W. E. Bowman, chairman. Cash prizes will be awarded to winners of first, second and third places in all classes and the grand champion will receive \$10.

Judges are Bob Harris, Corsicana; Ben Corbett, Hillsboro, and Walter Heine, Waxahatchie.

Bids Scheduled For Road Repairs Oct. 1

Bids are scheduled to be opened Wednesday, October 1, by the Navarro county commissioners court for repairs to concrete slabs located on the Parishville-Purdon road in Richland creek lowlands.

L. L. Powell, county judge, said that there was a surplus in Navarro county Road District No. 14 from which the repairs would be paid. The state county and district road bond indebtedness board has assumed the payment of most of the maturing bonds in this district, leaving a surplus.

The road is within that district and the original improvements were made from the proceeds of the bonds originally voted and used for the Purdy slab on Highway 31 and lesser roads.

DINNER PARTY FOR OFFICERS OF LOCAL GUARD UNIT PLANNED

A dinner party for officers of the Texas National Guard's 133rd Field Artillery Battalion, and their wives will be held at the Corsicana Country Club Oct. 2. J. C. Gaston, public relations officer, announced Thursday. Col. Thomas E. Spikes, the battalion's commanding officer, will be host.

The party will follow a meeting of the newly-appointed Guard Examining Board, which was named by the Adjutant General of Texas to review officer personnel prior to federal recognition. Members of the board are Lt. Col. Spikes, Major Lynn Kirkland, both of Corsicana, and Col. Frank L. Bui, a regular army officer assigned for the Texas National Guard.

Attending the Country Club fete will be officers from the battalion's batteries in Corsicana, Kaufman, Keene, Crockett and Athens.

Major Operation.

Larry Don Calhoun, 7-year-old son of Mr. and Mrs. J. R. Calhoun of Corsicana, underwent a major operation at the Baylor Hospital in Dallas Thursday, and was reported resting fairly well Sunday. He is a student in the William B. Travis school here.

Mrs. W. G. Owen will be hostess to members of the Mildred Home Demonstration Club on October 13 at Mildred school.

CORSICANA, TEX., SEPT. 26, 1947

GRATITUDE

Always of interest to Americans are such stories as the one coming from Boston where an obscure old man gave the Boston Public Library a surprise gift that will amount to three million dollars. The name of this 48-year-old former fruit peddler, John Deferrari, was unknown yesterday. Today it has been clicked out on the printing presses of the country.

When his formal schooling ended at the eighth grade he went to work helping his father peddle fruit, carrying his wares in a basket, walking from office to office in Boston's financial district. He saved the first money his father gave him and apparently most of the profits he made through the years.

Never marrying, Deferrari limited his personal wants to the simplest. He lives alone in a house purchased 60 years ago. He eats one meal a day, which he cooks himself, has no need for a telephone, radio, office, secretary or automobile.

The one indulgence he permitted himself since boyhood was reading in the Public Library. This he did every spare moment year after year. That institution is to be given back many fold what it gave him. Now other poor boys may benefit.

THE REAL NEED

Campaigns against un-American philosophies of life are missing their mark, according to Jennings Perry, a New York columnist. The American plan of government is satisfactory to all but a few. The trouble is not with the plan but with the abuses that have fastened on to it.

Every one believes in the free ballot. What causes resentment is a limitation like the poll tax, which denies the right of voting to the poor. Every one believes in our economic system, provided it works. When prices go sky high, when ordinary housing is out of reach of all but those with fat pocketbooks, the system is not working. To attack these abuses is not to attack the American system, but to strengthen it.

Organizations campaigning against Communism would be apt to find their work far more useful if they campaigned even more strongly against the maladjustments on which Communism feeds.

PROGRESS

The remark of a philosophic oriental in the matter of horse racing still stands as a pillar of wisdom. "It is not unknown to me," he said, "that one horse can run faster than another." And if this simple fact had been more wisely considered, a great many men would have sav-

Edgar A. Guest

(Copyright 1946 Edgar A. Guest.)

BLUNDERER

I say the things I shouldn't say,
 I do the things I shouldn't do,
 For none is here to signal "Nay!"
 And watch o'er me an evening through.

I tell the tales I shouldn't tell;
 I forget the names I ought to know;
 For she's not here who guarded well
 And gave the hints I needed so.

There was a lifting of the brow,
 The gentle shaking of her head
 And I was saved; where blundering now,
 I say what should be left unsaid.

Across the table not a sign!
 Across the room no signal thrown!
 Oh, what a sorry plight is mine
 To have no judgment save my own!

ed a great deal of money. The same consideration is obviously applicable to promiscuous poker playing and betting.

But it is in the nature of man to take chances, and therein fate or providence may work in mysterious ways, and an America may be discovered or an atomic bomb developed.

SIGNS DON'T DO IT

Posters describing automobile accidents have done much to curb careless driving in the United States, the Australian Information Bureau reports. The Australians plan to employ such warnings.

Most Americans have never heard of any road sign which reduced accidents noticeably. Ohio 20 years ago erected wooden crosses at scenes of traffic deaths, hoping this would make drivers cautious. If it did the figures did not show it. Some spots soon displayed as many as five or six crosses, without causing the average driver to slow down by a hair's breadth.

The artist who can devise a road warning sign that will actually be heeded should rank with Michelangelo and Leonardo.

NOT SURPRISING

The forthcoming country-wide journey of the "Freedom Train," carrying originals of priceless documents of American liberty, such as the Declaration of Independence and the Bill of Rights, is annoying Communists. According to one newspaper story, not verified but not improbable, the local servants of the Russian government have been directed to stir up antagonism to the train by questioning its personnel as to their stand on the Taft-Hartley law and other matters unrelated to the objects of the train.

Nothing could be more natural than to have pledges of freedom arouse the hostility of the most ruthless tyranny in the world today.

Now somebody says it's time for a third political party. Gosh, haven't we trouble enough with only two?

SOIL CONSERVATION DISTRICT NEWS

District Supervisor: Navarro-Hill. Soil Conservation District: Morris Crawford, chairman; W. C. Packer, vice-chairman; Thad Jones, secretary; K. Trecknor and W. Lewis, district members.

Marvin Henderson, of the Round Prairie Conservation Group, is clearing land for pasture development on his farm that is located four miles east of Eureka. Five acres of land have already been cleared with a bulldozer. Henderson plans to use the wood for fuel to pay for the clearing and develop improved pasture grasses and legumes on the new land.

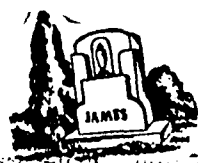

D. B. Bennett recently completed clearing ten acres of densely wooded land on his farm three miles south of Corbet. The land is located in Richland Creek bottom where conditions for developing improved pasture are ideal once the timber is removed. Clearing was done with a bulldozer.

Stock Water Pond
 S. A. West, cooperator of the Navarro-Hill Soil Conservation District, has just completed construction of a large stock water pond on his farm one mile northwest of Buffalo school. Personnel of the Corsicana Soil Conservation office gave assistance in locating, staking out, and checking the pond for completion. Work was done with bulldozer and scraper.

E. F. Stewart is in the process of constructing terraces on his farm by use of a farm tractor, plow and Fresno. Stewart has already planted ten acres of hairy vetch and oats for soil improvement and winter grazing. Planning and assistance in running lines and checking for completion is being given by personnel of the Wortham Soil Conservation Service office. The farm is located two miles north of Pursley.

Terrace Construction
 Terrace construction by use of farm equipment is under way on the Jack Stroube farm three miles west of Richland. The work is being done by use of a farm tractor and grader. The terraces empty onto a well-sodded permanent pasture. Stroube has also constructed several hundred rods of new fence which will enable him to better rotate cattle for regulated grazing.

"It Is True . . ."

that we are in business to maintain a livelihood for ourselves and our associates. would be unable to meet all demands from states through which the line passes because not enough gas would be left for the Appalachian and Philadelphia areas.

Purchase Price \$143 Million
 The two pipelines were built by the government early in World War II to move oil to the Atlantic seaboard. Texas Eastern has negotiated with the War Assets Administration to purchase them for \$143,000,000, subject to the company being able to obtain a power commission certificate. It has paid the agency approximately \$5,000,000. The remaining \$138,000,000 is due Nov. 25.

The company has been operating the lines which originate in Texas, on a temporary basis. Today's argument is the closing phase in the company's application for a permanent certificate. The arguments are expected to continue through today and tomorrow.

Gov. James H. Duff of Pennsylvania yesterday authorized use of the lines for the transportation of natural gas through lands and waters owned or controlled by the state. Previously, use was restricted to the transportation of petroleum and petroleum products.

Former Resident's Funeral Attended

Mrs. Neely Neely has returned from Rising Star where they attended the funeral of Mrs. Neely's sister, Mrs. Maggie Gattis, a former resident of Corsicana, who died at the home of a relative in Quitaque on Saturday evening.

Mrs. Tom Garner of this city, also a sister of the late Mrs. Gattis, is seriously ill and was unable to attend the funeral.

That Glamor Girl May Be A Lady Cop

By ADELAIDE KERR

AP Newfeatures Writer
You would never have dreamed to look at her, that the shoulder strap bag she wore so quietly held a .32 Colt Revolver. In her plain little highnecked cotton dress, her dark hair curling softly over her shoulders, she looked like thousands of other New York girls on their way to work or a young mother enroute to her marketing. Only the dark eyes were different. Their look was level as a measuring rod, steady as a torch, cold as steel.

Most of the men who jostled past her as she hung to a strap on the hurrying subway train would have jumped a bit, if they had known who she was—Transit Policewoman Catherine Morelli of New York's new Transit Police Force, assigned to apprehend men who molest women in Manhattan subways and buses and snatch purses. This time she was looking for an unusual case—the person who four times had slashed with a razor blade the back of one woman's skirt as she rode to and from her work.

Miss Morelli did not ride alone. Nearby stood the woman whose clothes had been ruined by cuts and, leaning quietly against a center pole, was Transit Plainclothesman Sergeant William McKernan. Since a New York rush hour subway train averages 3,000 riders, Miss Morelli and Sergeant McKernan did not expect to succeed at the first shot. But they expected to keep on riding and looking until they located their quarry.

CATHERINE MORELLI
New Model policewoman

To date the three policewomen on the new transit police force, founded last June, have made a total of about 40 arrests of molesters of women and purse snatchers in New York's transit system.

The other two are tall, blonde Virginia Callahan and quiet-voiced Frances Haber. Miss Callahan, who weighs 162 pounds, is an outstanding swimmer and weight lifter and was formerly physical director for the New York City Park Department.

Miss Haber was a riveter for the Douglas Aircraft Plant at Santa Monica, California, and later worked as a private detective in Brooklyn department stores. Miss Morelli is a graduate of Wagner College, Staten Island, was a wartime corporal in the Marine Corps Women's Reserve, and is now working for a master's degree in sociology at New York University.

All three were screened and chosen from a list of candidates by Mrs. Irene Peters, director of policewomen in New York, and were given certain basic training. All work in company with a plainclothesman. And all wear quiet, demure clothes. No sheer materials, low necks or lures of manner to attract attention. "Every day is new and different in this job," said Miss Morelli. "Often you can spot these molesters before they do anything. They are nervous and fidgety and inclined to watch women's ankles as they climb stairs. How can women protect themselves against them in crowded subways?" Here Miss Morelli grinned a little. "Well, so far as I know the old hat pin method is still the best there is."

Phone Company To Study Profits In Texas For Raise

DALLAS, Tex., Sept. 25.—(P)—A study of earnings in each of 248 exchanges in Texas will determine where the Southwestern Bell Telephone Company will seek rate increases, W. L. Prehn, general manager for the state has announced.

Prehn said the company will seek rate increases wherever earning justify application to city regulating bodies.

He also said last night the company will ask the state commissions in Arkansas, Oklahoma, Kansas and Missouri for authority to increase rates on a statewide basis.

DOGS' DAY:

Expert Says Canines Never Had It So Good

By WILLIAM J. CONWAY
AP Newsfeatures Writer
CHICAGO—Dogs, too, are enjoying good times.

THIS IS RICH: Living standards of dogs are higher than ever.

of pets," explains Clarence Olsen, president of National Dog Week, Inc.

The happy result, he adds, is that canines can celebrate "National Dog Week" (Sept. 21 to 27) with the view that living standards in the U. S. are higher than ever before.

Dogs receive inoculations to protect them from disease, he says. They get medical, dental and surgical treatment. They eat one billion pounds of prepared foods a year—foods calculated carefully to give them adequate nutrition.

"A researcher has said," Olsen recalls, "that if we were regimented to a balanced diet like dogs are, we would add years to our lives and life to our years."

Under favorable conditions, the American dog population now is up to an estimated 18 to 20 million, the highest in history.

One family in each four in cities and towns now has a dog, and hardly a farm is without one.

Many of the four-legged favorites have improved their stations in life. Among them are "Cover Dogs," "War Dogs," "Seeing Eye Dogs," and "Movie Dogs."

But Olsen points out that fortunes of dogs rise and fall with the fortunes of their owners. They gladly share the wealth of the wealthy, and loyally share the poverty of the poor.

Many of them receive little or no care, and scrounge their sustenance from neighborhood garbage cans.

So, he submits, there is a lot of room for improvement for a lot of dogs.

Among the points being stressed in National Dog Week is that man's best friend should be treated as such.

Rites For Infant Thursday Afternoon

Funeral services for Robbie Shan Roberson, one-day-old son of Mr. and Mrs. E. H. Roberson, Corsicana, who died Wednesday morning at the P. and S. Hospital, were held Thursday afternoon at 2 o'clock from the Griffin Funeral Chapel. Interment was in the Post Oak cemetery. The rites were conducted by Rev. G. W. Walker, pastor of the Pentecostal Church of God.

Surviving are the parents and grandparents, Mr. and Mrs. O. S. Wallace, Corsicana, and John Roberson, Roane.

PARTY CANAPES...

That Look Pretty and Taste Good

BEAUTIFUL FOOD... Appetizer tray and table decoration of exotic flowers carved from fresh vegetables...

By CHARLOTTE ADAMS
Associated Press Food Editor.

Tino Vazquez is a Cuban artist who has turned his artistic talent to the field of food. He makes the most beautiful canapés I have ever seen, and while his is an entirely professional job, you can approximate it yourself if you'd like to. If you could see one of Tino's simple, beautiful tables set out, you would want to:

He starts with a beautiful, unpatterned Irish linen cloth in a neutral gray which shows up the artistic forms of his canapés and enhances the natural brilliancy of the vegetable colorings. The canapés themselves offer almost enough by way of decoration, but Tino does something more than that. He makes a "flower" arrangement entirely out of vegetables! He uses no tools except an ordinary paring knife, and his results are more beautiful than many flowers.

The vegetables are left out of the refrigerator until they are pliant. After he has carved his flowers he decorates them for 24 hours in running water until each petal is brilliant and transparent. Then they are refrigerated in ice water until they are crisp. He makes lovely cabbage roses out of red cabbage, beautiful gardenias out of parsnips, lilies out of pattypan squash and radishes, flowers that never really grow, but are beautiful, out of scallions and pine apple leaves on a rhubarb stem. Greens are sometimes dandelion leaves and chicory. Try a little of

this vegetable sculpture. You'll enjoy it and you'll be thrilled with the results.

Now for the canapés. Tino has a few basic principles. First, he keeps things as simple as possible. He believes in elimination, rather than accumulation. He doesn't combine more than two colors. He makes special little melba toast shells to hold his fillings and they are so beautifully arranged that no tray looks messy, even when there's only one canapé left.

Here are some of Tino's canapé spreads and fillings for you to try.

Zesty Butter.
2 cakes cream cheese, 1 tablespoon chives chopped fine, 1 teaspoon horseradish, 1 teaspoon English mustard, 1 tablespoon tomato ketchup, 1 tablespoon Worcestershire sauce, 1-8 pound butter, 1 tablespoon Madeira wine.

Beat all ingredients together until very creamy and light. Chill in refrigerator. Salt and pepper. (Be generous with pepper.) This butter is delicious with radishes and cucumbers, as well as for canapé spreads.

Avocado Paste.
Mash an avocado very fine. Add a few drops of lemon juice to prevent discoloration. Then add a light touch of pure garlic powder and a tablespoon of good mayonnaise. Beat until light and fluffy and add salt and pepper—it should be peppery. Chill in refrigerator. This is used to top halves of hard-cooked eggs, as well as for a spread.

Chicken and Pecan With Avocado

Jimmie F. Jackson Re-Enlists In Army

Jimmie F. Jackson of Corsicana, son of Mrs. W. H. Shanks of Fairfield, was accepted for a three year enlistment in the regular army Tuesday, Sept. 23, in Waco, U. S. army recruiting service has reported.

Men can enlist for special assignment in grade at present, for Camp Hood, Fort Sill, Fort Worth army air base or Hensley Field, and many other choices, the recruiting service has announced. Their office is located at 110 1-2 West Collin street.

1-2 cups cooked chicken, 1 cup chopped pecans, 1 cup chopped crispy green pepper, 2 tablespoons chopped parsley, 2 tablespoons chopped chives, salt and pepper, 2 tablespoons mayonnaise, avocado balls.

Cut chicken into very small cubes and add other ingredients except avocado balls. You may use sour cream instead of mayonnaise, but Tino says please not salad dressing! Chill in refrigerator. When ready to serve fill melba shells with the mixture and top with a tiny ball of avocado, made with a tiny scoop, with the green side up.

Sun Want Ads Bring Results.

Author of the Week

By W. G. ROGERS

Humphrey Slater, English author of a novel, "The Heretics," dealing with the perils of fascism, started out to be an artist and turned, after many adventures, to writing. He has traveled in Russia; in Germany where he joined in street fighting against the Nazis; in France and Spain where he was a journalist. In the Spanish Civil War he was chief

of operations for the International Brigade. In World War II he rose to the rank of major, when he was invalided out of service. Married and the father of two children, he is editor of Polemic, a magazine, and is working on his second novel.

Notice

Fox Hunt Supper will be served at Davis farm on South Highway 31 Sept. 26, by Cedar Creek church. Everyone is invited to enjoy a delicious meal and help on his second novel.

From where I sit... by Joe Marsh

We All Need Fun!

Nobody in Our Town is exactly lazy (even though Pete Swanson's missus claims he sleeps till seven A.M.). But the hardest working man of all is Doc Hollister—on call, morning, noon and night.

Funny thing, Doc's favorite prescription to his patients is: You ought to have fun. The pace of modern living, even on the farm, demands some relaxation.

And as Doc says—fun is a personal thing. For the missus it may mean a movie or a good book; for Dad, a mellow and refreshing glass

of beer; and for the kids, parcheesi or the radio. Doesn't mean everybody has to like the same thing—so long as they relax, have fun, together, in the home.

Doc doesn't have much time himself. After a hard day, he'll relax before the fire with a glass of beer—and wait for the phone to ring again. And from where I sit, Doc deserves each well-earned minute of that relaxation.

Joe Marsh

A Painful Break: Foul, Not a Homer

CHICAGO—(P)—A woman who lives across the street from Wrigley Field made a tardy demand for payment for a shattered window. "That happened several days ago," she was informed. "Why

didn't you report it sooner?" "I thought Bill Nicholson (Chicago Cubs long ball hitter) might have hit a home run, the complainant replied. "Then I wouldn't have cared. But I just learned the window was broken in batting practice."

WAC Refuses Promotion... Confounds Old Army Hands

By JOHN F. McKNIGHT
AP Newsfeatures
LEGHORN, Italy.—The case of Mary Dugan—WAC, of 233 Elm Street, Yonkers, N. Y.—is one to confound and amaze all old army hands.
Private Dugan has refused promotion from buck private to corporal.
To soldiers whose second favorite topic of conversation is the prospect or lack of prospect of new "ratings," the trade name for promotions of enlisted personnel, turning down stripes or additional stripes is unheard of.
But Miss Dugan, pretty, blonde blue-eyed, bespectacled typist in the adjutant general's office of MTOUSA headquarters here, is firm about it.
Although she is the only buck private in the detachment of 129 WAC oldtimers assigned to this headquarters, she says, "I won't be promoted—and that's final."
Her reasons she will not give. She says they are "top secret and state secrets." Noncoms in her outfit say it is because she doesn't want to be "placed over any male." This private Dugan laughs off scornfully.
Miss Dugan, who was born in Flatbush 32 years ago, joined the WACs five years ago and served at Fort Riley, Kas., Camp Carson, Colo., Indiantown Gap, Pa., and Fort Meade, Md., before shipping overseas from Camp Kilmer, N. J., last December. She likes Italy and Italians, she says, and she likes the army—although she plans to get out when her time is up in January, 1949.

PRIVATE MARY DUGAN
Spurns corporal's stripes.

A skilled typist employed at the treasury department for two years before she joined the army, she thinks she will have no trouble finding work with the government or private business.
A brother, Cornelius C. Dugan, served with the air force in China as a Pfc.

It Happened 25 Years Ago Today

(From the Files of the
Coriscana Daily Sun)

A prominent Coriscana physician regaled local citizens for permitting the mosquito-borne dengue fever epidemic, saying "Would it (getting rid of the mosquitoes before the epidemic started) have been worth while? Why have we sat here idle? Did not the coming event cast its shadow before—five weeks ago it was reported in the city."

J. R. Noble, U. N. Scarborough, J. R. Scoggins and J. R. Harris were named as delegates to the state convention of the UCV in Hillsboro.

City officials were meeting with representatives of four different concerns that were bidding for the contract to furnish Coriscana with a modern downtown lighting system.

Deputy Sheriffs Warnell, Pavhouse, Smith and Chandler captured five barrels of corn mush in a raid on a still near Corbet.

NAVARRO BULLDOGS PLAY ROAD GAMES NEXT TWO WEEKS

LOCAL COLLEGIANS MEET DECATUR BAPTISTS IN OPENING TILT

The Navarro Junior College Bulldogs still untested in the 1947 season due to cancellation of their grid game here last week, will hit the road for two straight weeks, beginning Friday night when they go to Decatur for a tilt with the Decatur Baptists.

The locals rate the favorites on such flimsy and inconclusive evidence as Decatur's 19-0 loss to Ranger last week. Since the Bulldogs have not played, a rating on the basis of practice and scrimmage is about all that is available.

In an effort to make up for lack of game experience, Coaches Ken Clark and Guyle Akridge have put their charges through stepped-up scrimmage workouts this week and will taper off this afternoon in preparation for the game Friday night. Game time for the tilt is set at 8 o'clock.

Impressive Lineup
In line drills this week impressive work has been turned in by Topsy Watson, Dan Davidson, Floyd Longino and Red Gilmore at the ends, and from all indications, the collegians will have plenty of reserves at the wing positions.

Tackles Tommy Phillips, James Lowrance and David Little are battling for starting positions, and are making a decision hard for the mentors. A wealth of material exists at the guard slots. Veterans Jim Bob Ivey, Henry

Former Tiger Wins First Game As Coach

Eogner Stubbs, former Corsicana Tiger lineman, made an auspicious debut as a high school football coach Friday night when his Checotah Wildcats of Oklahoma defeated the Stillwell, Okla., high school crew, 34-0, in a district 8-B game.

Stubbs graduated last year from Tulsa University, Tulsa, Okla., following several years performance with the Golden Hurricanes, outstanding football team.

Anderson and Billy McNabb are back and doing well, but newcomers Harold Prestige, Danny Burnham, Joe Bob Dixon and Rumbelow are giving notice of stiff competition.

Jack Hitchcock, D. W. Barnes and Wilburn Raby are battling it out for starting center, with Hitchcock rating a slight edge at the present.

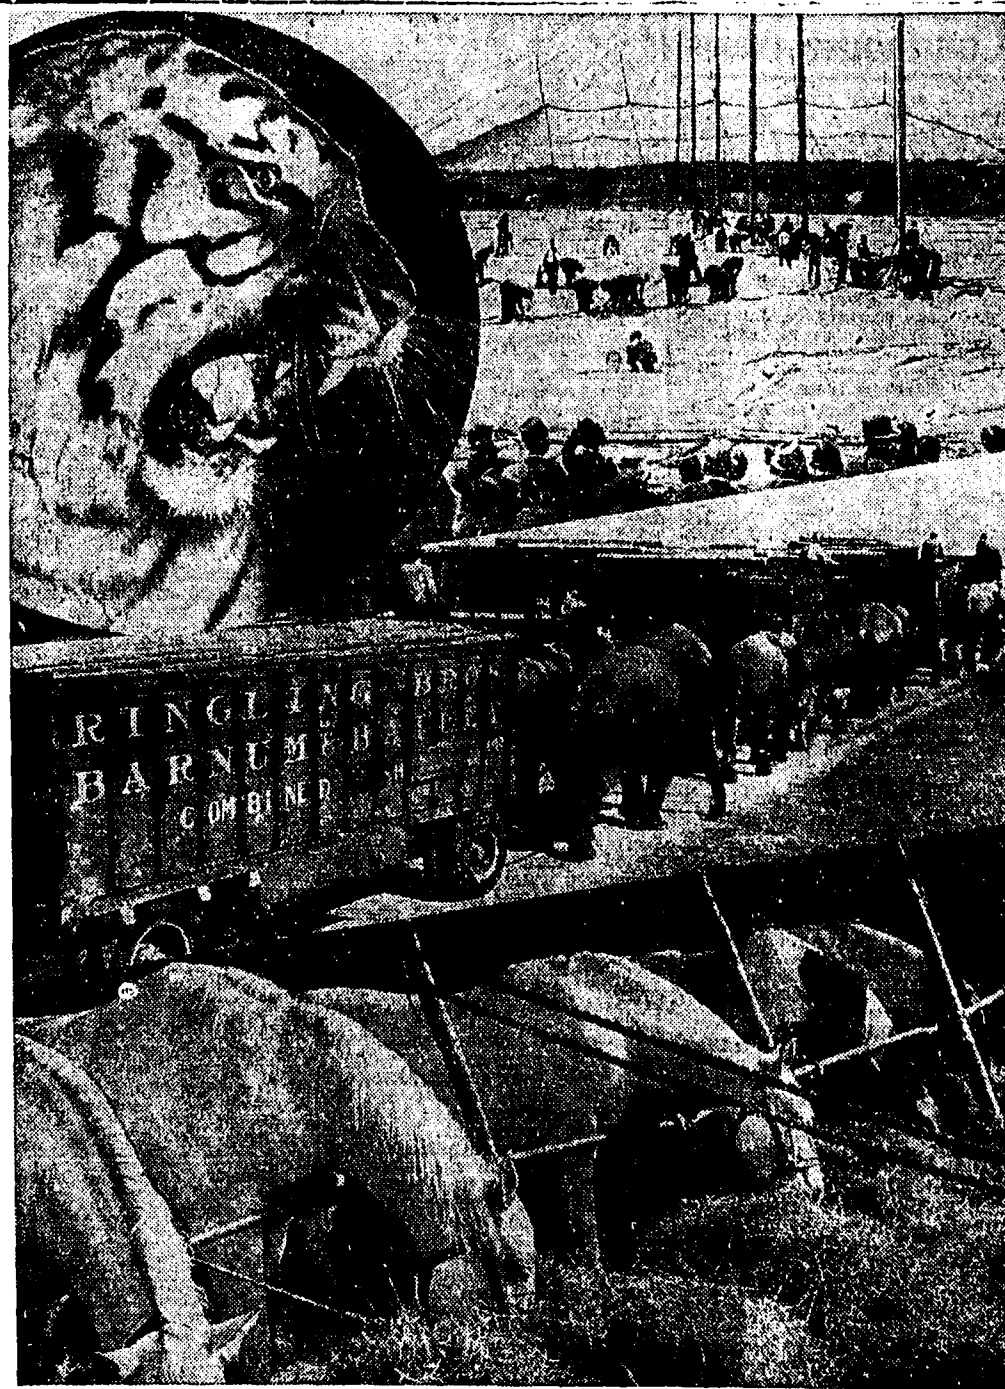

Backfield Candidates
In the backfield Milton Vinson, Luke Thornton and J. C. Skipworth are looking good, especially on blocking assignments. J. C. Collier, southpaw pass tosser, is regaining his old form, both in passing and running. Collier is a light, fast back, but wears well. Jack Matthis is giving him some able support.

No additional injuries have plagued the Bulldogs since their misfortunes in that department early last week. Milton Spurgeon's knee is better, and he has seen some action on defense in the tackle position.

The Navarro mentors still say that many of the boys who are out for the first time at the college will see action Friday.

TODAY IS CIRCUS DAY—Ringling Bros. and Barnum & Bailey Circus, shown in various scenes above, presents two performances today (Friday) in Corsicana. Located on new showgrounds on North Highway 75 because the old site was too small for the "greatest show on earth", the circus will open its gates at 2 and 7 p. m., with performances at 3:15 and 8:15 p. m. Tickets will be on sale all day today at Sanders Pharmacy and Grill, and at the showgrounds before each performance.

Frost Polar Bears Defeat Corsicana Cubs Wednesday 7-6

The Corsicana Tiger Cubs dropped a 7-6 decision to the Frost Polar Bears Wednesday night in Frost, when a last-quarter spurt by the locals fell short as the Cubs missed their try for the extra point and a tie.

Frost got its score in the third frame on a long drive, and made the extra point count. The Corsicana score came in the fourth period, when Charles Bristow's 35-yard pass connected to Jackie Crook, who ambled 15 more yards for the score. A pass try between the same two for the extra point was blocked.

Frost's end sweeps in the first half had the Cubs on the defensive, and by the time Corsicana had begun to threaten, their best efforts were nullified by costly fumbles. Corsicana fumbled four times, and lost the ball on each error.

Harvey Helms played a good game for the Cubs at tackle, as did Frank Warfield and Elbert

FUNERAL SERVICES FOR MRS. A. A. STEELE THURSDAY AT 4 P. M.

Funeral services for Mrs. A. A. Steele, aged 81 years, former resident of Corsicana, who died at Corsicana, Texas, on Wednesday, Sept. 25, 1947, will be held at 4 p. m. Thursday afternoon at 4 o'clock. The rites were conducted by Rev. A. W. Deguire, former minister of Corsicana.

Mrs. Steele was a native of Prairie Grove, near Mexia.

Surviving are two sons, W. K. Steele, Corsicana, and A. R. Steele, Sherman; a daughter, Mrs. Luther Adamson, Mexia; two grandsons, and a sister, Mrs. W. A. Hanger, Fort Worth.

Corley Funeral Home directed.

Berry in the backfield.

It was the second game of the season for the Cubs. They trimmed Trinidad 15-9 in the first contest. Their next game is with Clubhouse "B" club here on Thursday night, October 2, coach Otis Pederson has announced.

Reassembly Of Keren's PTA Held On Tuesday

KERENS, Sept. 25.—(Sp.)—The Keren's Parent-Teacher's Association held its reassembly meeting Tuesday afternoon in the high school auditorium at 3:15 with the President, Mrs. Jack Anderson, presiding.

Business for the afternoon included reports from the various committees, and the election of Mrs. W. L. Bain, Jr., as secretary and Mrs. W. S. Price, Jr., as historian.

The group also voted to buy a combination radio and record player for the grammar school and to sponsor a Girls' Scout organization.

Mrs. Anderson then introduced Mrs. Charles Reese, as speaker for the afternoon. In her talk on "The More We Get Together," Mrs. Reese gave an interesting discussion on the advantages of closer co-operation between teachers and parents.

After the program the group was invited into the band room where the social committee, composed of Mesdames G. H. Wilman, Leslie Parker, V. D. Bruner, Ben R. Cherry and E. K. Howell served punch and cookies from the beautifully decorated tea table.

Leaving Old Home Hard As Parting With Good Friend

By HAL ROYLE

NEW YORK.—(P)—Saying goodbye to a home is as difficult as parting from a friend you never expect to see again.

Homes have as many flaws as friends do, but you forget them all when the time for leaving comes.

So it was with little elation that we moved out of our battered old Greenwich Village apartment after seven years and set up in a brand new building where you can sit and watch the East river tugs go scooting by like water bugs.

We knew we were lucky to find a clean modern apartment after only a 12-month search, though paying the rent promised to be as painful as going to the dentist.

Feeling of Panle
But France and I both got a feeling of trapped panic when the furniture van drove up to take our things away. The three merry bruisers who were to do the job said there would be nothing to it.

"Don't worry, dear, just leave everything to us," the leader said to my wife with that mixture of broad contentment and kindness with which furniture movers try to still the housewife's fear of damage to prized belongings.

A moment later he pawed a barrel of kitchen ware to his broad back and headed for the door, ricocheting off our antique walnut desk.

I am helpless against people like furniture movers, waiters and subway guards. So our friend, Laurie Wells, and Jeanie, our half-a-day-a-week maid, took over and bossed the baggage smashers so efficiently that nothing was broken except some symphony records. They hadn't been much use anyway, as the man who once loaned us his music box for a spell took it back some time ago.

When the last attic was gone, Frances and I walked together around the bare apartment for the last time. Already it looked strange and foreign—as if it had forgotten us. So many people had lived there in its hundred years. "I'm going to leave the flower boxes and the flower pot," said Frances. "They belong here. But I do wish we could take the old fireplace."

We turned the key in the door lock. It gave a farewell click. We walked slowly to the dark stairwell down which my father-in-law had been carried after he was fatally stricken during a visit to New York. We had a memory—some good, some bad—for every worn step.

Corsicanan Given Life.

SENDAL, Japan, Sept. 25.—(P)—Two American soldiers who were given a retrial have been sentenced to life imprisonment on charges of rape.

They are Sgt. Archie L. Tackett, Corsicana, Texas, and Pvt. James Barker, New Marshall, Ohio, members of the 67th Parachute Field Artillery battalion.

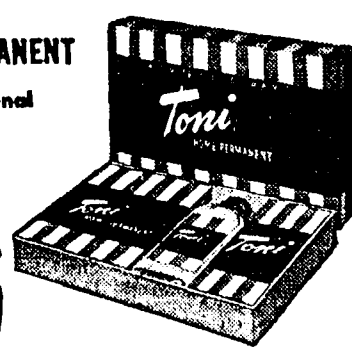

The two were found guilty in their first trial, but Maj. Gen. Joseph M. Swing, commanding the 11th Airborne division, disapproved the verdict. He will review the new verdict.

DYNAMITING
CONTINUED FROM FIRST PAGE
Commission of failure to investigate damage done to marine life by dynamiting.
Time and time again the game commission has been called on to make investigations but they've done practically nothing about it," he said. "They've said, 'Oh, experiments are being made in Louisiana, and they've looked at a few bunches of dead fish and said the damage was negligible.' That's turn said the dynamiting had cut down the revenue of commercial fishermen 50 per cent.
In reply to statements that oil companies should have the right to explore for oil in order to reap greater benefit for public school funds, Herbert Cartwright, Jr., mayor of Galveston, said:
"We're not going to close the little red school house in Galveston. The oil companies aren't fooling anybody in Texas. They fight every tax measure up here in the legislature. If dynamiting is

SIMON DANIELS
Third Ave. and Beaton St.

refugees that it could not do." Elser sought admission as a German refugee.
"Considerable Evidence" Messersmith said he wrote to Miss Thompson that the state department files contained "considerable evidence x x x that Elser is a Communist."
Elser did not obtain a visa at Havana, but subsequently got one at Mexico, through the consul general there.
Elser, 54-year-old self-styled "free lance artist," entered this country for residence from Mexico in 1940 after having been in and out several times previously. Stripling told the committee yesterday the musician was allowed to enter and remain despite a labor department finding that he was a Communist and after a special board had recommended against his admission. The special board was overruled by a board of appeals in Washington, and a then pending appeal warrant for Elser was cancelled.
The committee is seeking to learn why Elser has been allowed to stay here. Stripling said it may recommend that he be prosecuted as a result of yesterday's testimony.
Mrs. Roosevelt's interest in the case was brought out in an exchange of correspondence between her and Welles, then undersecretary of state, early in 1939.
In one which bore the salutation "Dear Sumner," Mrs. Roosevelt suggested that the Elser case be reopened to give Elser an opportunity to "defend himself." She said a "perfectly honest" friend of the composer's had told her that Elser was not a Communist.
"Hard Nut To Crack" In a later memo, Mrs. Roosevelt referred to the case as a "hard nut to crack."
The former first lady told reporters at Lake Success, N. Y., that her correspondence concerning Elser was routine and that she had simply passed on "for consideration" a name which had been sent to her. She did this in many cases, she said, adding that she did not know Elser.
Welles, whose replies opened with "Dear Eleanor," noted that departmental files indicated Elser "has been connected in some measure with Communist organizations" but disavowed any prejudice against the musician and his wife.

CONVICTS
CONTINUED FROM FIRST PAGE
Hartless opened the door for police and Williams and Knight, covered with frost from the 2-below-freezing temperature, staggered out.
"We're glad to be caught," Knight admitted. "Another few minutes in there and we would have been frozen stiff."
The escapees were taken to the Houston city jail. They will be turned to the prison farm later today.
J. T. Black, superintendent of the Blooming Grove schools, was a Corsicana visitor Wednesday.

County Attorney.
County Attorney Charles Banister announced Tuesday that the Navarro county grand jury would meet Saturday.
County Court.
James Willis Dozier and Eugene Mayfield each was sentenced to one day in jail and fined \$100 Tuesday after they pleaded guilty to charges of theft. Both were charged with taking a diamond-studded stickpin from a fellow prisoner in the county jail.

Justice Court.
Judge A. E. Foster fined one person for disturbing the peace. Judge E. Foster fined three persons for disturbing the peace and transcribing a theft case to county court. Judge W. H. Johnson transcribed one theft case to county court. Judge W. H. Johnson fined one on charges of defrauding.

County Jail.
Sheriff's Deputies Raymond Myrick and R. E. Jones arrested and placed in jail a soldier wanted by army authorities for being absent without leave.
Deputy Myrick jailed one person for disturbing the peace and Constable Joe Allen and his deputy, John Kelly, committed one drunk to jail.

AMENDMENT
CONTINUED FROM FIRST PAGE
to have passed. He raised the question as to whether a court restraining order of the nature requested would have any effect and recessed the court until 2 p. m. to allow time for a conference of attorneys on both sides to consider the question.
Filing of the new suit delayed arguments scheduled to begin today in the first suit brought to nullify the election, which has been under attack from a group of taxpayers.

Injunction Sought.
This is an injunction to prevent Attorney General Price Daniel from approving any bonds that might be issued under the amendment adopted in August by a narrow margin.
The state defended validity of the election on grounds that in reality it contained only one subject, but that there is no specific legal prohibition against submission of more than one subject to the electorate.
This argument was contained in a brief submitted today to District Judge Roy C. Archer by Assistant Attorney General Joe R. Gage.
A group of property owners, most of them from Lubbock, asked the court for injunctive relief on grounds that the proposal submitted five issues in one proposition, violate Article 17 of the state constitution.
"Irregular and Void" The petition asking the injunction contended that "such purported amendments to the constitution are irregular and void, and any bonds issued pursuant to the provisions thereof, would be illegal, void and unenforceable." It argued that Article 17 requires that "each purported amendment x x x be submitted as a separate issue, containing only one issue."

The state's answer came back with this argument:
"1. The Texas constitution does not limit the legislature or the people to one subject in any constitutional amendment. Not being so limited, an amendment may contain more than one subject."
"2. Notwithstanding the above, it is submitted in alternative that even if there may be some implied limitation in the constitution that an amendment may only contain one subject, the college building amendment contains but one subject, and that term has been defined—providing for buildings and other permanent improvements for state supported colleges and universities. All matters in the amendment including the method of financing are integral and germane to this single objective."
The brief argued that numerous amendments with more than one section have been adopted by the Texas electorate and that the amendment now being considered, it cited on such amendment adopted in

FOOD-AID
CONTINUED FROM FIRST PAGE
wheat. Presumably he meant 70,000,000 bushels a year.
The proposal for conserving foods stemmed directly from a recommendation of a committee of cabinet members who have been studying world food programs. This committee is headed by Secretary of Agriculture Anderson and includes Secretary of State Marshall and Secretary of Commerce Harriman.
Mr. Truman released their report, plus a statement of his own on it and on the Marshall plan. Conservation "Essential."
Mr. Truman said:
"The cabinet (food) committee made it clear x x x that definite steps to conserve use of food stuffs at home and reduce the feeding of grain to livestock will be essential if we are to make our fullest contribution towards meeting minimum foreign needs and at the same time relieve the upward pressure on prices at home."
Consequently, he said, he is naming the special citizens food committee headed by Charles Luckman, president of Lever Bros., Cambridge, Mass., to lead a conservation campaign.
At one point, he said he could not say how many millions of dollars would be involved in stop-gap aid to Europe. He acknowledged that a shortage of dollars and other funds causes a shortage of food and fuel.
Return to Controls Doubtful.
Mr. Truman also was not willing to go so far as to say that a return to rationing and price controls, or to other wartime controls might be necessary to support America's program to combat hunger and Communism in Europe.
These, he suggested, are matters for congress to determine. Answering statements of some Republican leaders that they have not been kept informed on world conditions, Mr. Truman said he was letting them know as soon as he found out himself. He pointed to a copy of the report on the Marshall plan, enclosed in green cardboard folders and tied with red tape and said it had just arrived this morning.

Special Committees Named.
The chief executive said he is asking special committees he has appointed and various government agencies to look over the Marshall plan information for the benefit of congressional studies. The 16-nation Paris conference is asking for some \$2,440,000,000 of outside help from the U. S. in the next four years. Mr. Truman said he also is counting on Latin America to give a hand. He said no conference with Latin American nations has been called but they will be

1935, raising the individual salaries of various state officials, and another reorganizing the judiciary adopted in 1891.

kept informed of developments. The problem to which the report of the Paris conference is devoted, Mr. Truman said in his statement, "not only underlies the political and economic well-being of Europe, but is also of key importance to a stable peace in the world."
Economics Peace Factor.
"The people of the United States recognize, as do the people of the European nations, that the earliest practical achievement of economic health and consequent political stability in Europe, is of utmost importance for the peace and well-being of the world."
The few lawmakers in Washington professed little information about Mr. Truman's call for congressional leaders to meet with him on Monday.
The White House, too, was non-committal except to confirm word

from Senator Taft now on a western tour that the session had been arranged. Taft said at Seattle he understands the president wants to discuss the world food situation as it relates to exports under the Marshall plan for aiding Europe.
Anderson told newsmen the Monday conference had been mentioned at yesterday's cabinet meeting but that he knew no details. The agriculture secretary said there was no talk of a special session of congress to consider stop-gap help before the Marshall plan can be put into effect.

Lieut. Comdr. and Mrs. Clyde Stroud and son, Abe, who have been visiting in the Stroud and Burke homes, have gone to Philadelphia, Pa., where Lieut. Comdr. Stroud will attend the University of Pennsylvania during the coming year.

THREE MEN FROM NAVARRO COUNTY ENLIST IN ARMY

Three Navarro county men enlisted in the U. S. Army last week for three year terms. Two of them gave the reason for their enlistment to make the army a career while the third, entering the armed forces for the first time, said he desired to learn a trade.

Robert V. Stogner, 26, of Frost, son of S. V. Stogner, Frost, enlisted for service at AAF at Fort Worth Army Air Base with the rank of staff sergeant. He formerly was a marine and plans to make the army a career.

Hobson E. Tramel, 25, Kerens, son of Robert V. Tramel, Kerens, enlisted for the AAF at the Fort Worth Army Air Field, and plans to make military service his career. He previously served six years in the army. Tramel has the rank of staff sergeant.

Roy Grounds, Jr., Frost, Texas, son of Mrs. Lucille Halliford, enlisted for three years. Age 17 years, Grounds has not had previous military service and in civilian life was a student. Reasons for joining the regular army by Grounds were given that he wanted to get paid while learning a trade.

In And Out Of Service

Private Billy O. Greer, aged 17 years, Kerens, Route 1, has recently completed basic training in Company A of the 42nd Battalion, replacement training center, Fort Ord, Calif. He received the rating of marksman with the M-1 rifle.

Pvt. Greer attended Powell High school and played basketball.

Returns From Auto Trip To New York

J. R. Donnell recently visited New York seeking to interest publishing houses in printing a book and gave a number of impressions gained on the automobile trip with his grandson, Jack Hodson, of Houston, on his return. Mrs. Hodson also made the trip.

Donnell spoke of the prosperous looking farm homes of Tennessee, Virginia, and New York state—of the fine barns, silos, herds of dairy cattle, etc.

"Navarro county and all of Texas needs more small farms cultivated by the owners, and with more dairy cows as a means of regular income and for building up the fertility of the land," Donnell pointed out, and added:

"With a large increase of such farm homes, and with more people owning homes in the towns and cities, we would have little cause to fear the encroachment of communism. Home ownership and communism do not thrive together."

PHILOSOPHIES OF LIFE TRIED AND TESTED IN EVERY AGE*

Materialism a Perennial Problem -- Solomon Ruined Happiness With Excess -- Youth Training Society's Greatest Task -- Morality Will Not Save Without Religion

By WILLIAM T. ELLIS and EARL L. DOUGLASS

What makes the right kind of folk—who will in turn make the right kind of world?

This problem is larger, deeper, higher, wider than any issue with which the United Nations is wrestling. For only a new type of individuals can make possible a new world.

The question lands us plumb in the field of religion, which has always been the fundamental formative force in the shaping of human character. Without religion, we cannot have morality; without morality, we cannot have social safety; without social safety, we cannot have civilization.

Solomon's Blunder

Everybody is at present in more or less of a haze of confusion because of the amazing and contradictory utterances of contemporary leaders of thought. It is the fashion among many philosophers to minimize man's place in the vast scheme of things. As one scientist said, "Astronomically speaking, man is negligible."

The Bible puts God at the center of things. And He makes a place beside Himself for man in sublime cooperation.

That was where Solomon blundered. He made himself Number One and God Number Two.

Solomon really was one of the most unusual men who ever appeared on the face of the earth, so brilliant that his own and succeeding generations were dazzled by his intellect. Early in life he was prompted to put God at the center of his life and use his great gifts to God's glory. But privileged circumstances proved too much for Solomon's weak will. Before many years had passed, he put himself at the center of his universe, living only for his own pleasure, wisdom, folly, mirth, and pleasure had proved to be only "a striving after wind."

An Old Man's Wisdom

At last, when it was too late to be of much value to him, the secret of his mistake dawned on Solomon. He had put himself at the center of everything. He had set himself to enjoy life instead of to live it after the will and purpose of God. So the sweets of life and cloyed on his tongue. He had found himself filled to surfeit, yet unsatisfied. He had missed God, which means that he had missed everything. His philosophy had all been "under the sun."

But there was one thing left to do. He could warn others coming after him to beware of such folly. So he wrote, at the close of the Book of Ecclesiastes that noble chapter—the Sunday School Chapter—which begins, "Remember now thy Creator in the days of thy youth, before the evil days come, and the years draw nigh when thou shalt say, I have no pleasure in them." Although it was the eleventh hour and after, he would proclaim the truth which he should have uttered years earlier and, most important of all, should have lived; namely, that to remember God and fear Him and keep his commandments—this is the whole duty of man.

Secret of Happiness

God wants people to be happy. His laws, even the sternest of the commandments, are designed to promote the highest human welfare. He has so constituted life that obedience to Him brings happiness, while disobedience insures misery.

Furthermore, he has endowed upright living with a thousand more satisfactions than can ever be gained from dissipation. "There's something fine about being decent," a man said recently. And there is. Millions of men and women who have paid the price of upright living testify to this in every generation. Not like Solomon do they cry out at the end of their lives, "Vanity, vanity, all is vanity." They remember their Creator in the days of their youth and keep on remembering Him as long as they live.

Personal morality always reaches a low ebb in post-war days, as

we are now seeing. Chastity, truthfulness, the social responsibility are treated as lightly as the whim of a summer day. The problem confronting every person is how to maintain independence of character and purity of life within the compass of assuaging temptations.

A generation or more ago Maltbie Babcock wrote: "One's life consists in the number of things to which he is alive. To be alive only to appetite, pleasure, pride, money-making and not to goodness and kindness, purity, and love, story, poetry, flowers, stars and God and eternal hopes, is to be all but dead."

Solomon, in the midst of his selfish living, was really dead; but he did not discover his true state until just before the family called the undertaker.

SEVEN SENTENCE SERMONS

A life of pleasure makes even the strongest mind frivolous at last.

—Bulwer.

A smooth sea never made a skillful mariner; neither do untried prosperity and success qualify men for usefulness and happiness.

—Burton.

Hast thou kept honor, and sweet courtesy kept? Then is no loss that may be wailed or wept.

—Richard Watson Gilder.

Every duty which we omit, obscure as it may be, which we should have known.

—Ruskin.

Fear God, and keep his commandments.

—Ecclesiastes 12:13.

A sacred burden is this life ye bear; Look on it, lift it, bear it steadily; Fail not for sorrow, falter not for sin; But onward, upward, till the goal ye win.

—Frances Anne Kemble.

The life of every man is a diary in which he means to write one story, and writes another; and his humblest hour is when he compares the volume as it is with what he hoped to make it.

—James M. Barrie.

The Sunday School Lesson for September 28 is, "Worthy Objectives For Life," Ecclesiastes 1:2, 17; 2:1, 11, 24; 12:1-8, 13-14.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1 Taken like a tonic, it should stimulate thy appetite, digestion, thus help build resistance for the "time" to come.

2 Started 3 days before "your time," it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

FRANK E. WILLIAMS FUNERAL SERVICES PLANNED SATURDAY

Frank E. Williams, aged 57 years, died in the Naval Hospital at Long Beach, Calif., Sept. 19. He was a native of Corsicana.

Funeral services are planned Saturday afternoon at 2:30 o'clock from the Corley Funeral Chapel. Burial will be in Oakwood cemetery with the Masonic Lodge in charge.

The rites will be conducted by Rev. Finis A. Crutchfield, Corsicana District Methodist superintendent. The body is scheduled to arrive in Corsicana Friday.

Surviving are a son, Edwin Williams, Dallas; two sisters, Mrs. Hatie Stiff, Los Angeles, and Mrs. Alice Crossland, Houston; two brothers, John H. Williams and

George E. Williams, both of Long Beach, Calif., and other relatives including Fred S. White, Frank N. White and Mrs. John Shepherd, cousins, all of Corsicana.

Judge Mays Attends Canadian Chicken Field Trial Events

District Judge and Mrs. A. P. Mays returned Monday from an extended trip to Canada where they attended the Dominion Prairie Chicken Championship field trials events.

Virginia Anderson, a bitch owned by Judge Mays, competed in the championship this year. There were 82 entries in the championship, 88 in the all-age competition and 40 in the derby.

The All-America competition and the International trials were postponed this year because of

unfavorable grounds and other factors. Judge Mays, who is president of the Texas Championship Field Trials here, was to have been one of the judges in the International trials.

Judge and Mrs. Mays left Corsicana, Sept. 5, making the trip to Canada through Oklahoma,

Kansas, Nebraska and the middle West, and returning home via the Dakotas, Wyoming, Colorado, and other states in that sector.

Frank Dunton, who received his degree at the University of Texas during the past summer, is now assistant teacher of anatomy at the University.
